Compact Pipe Ranger

CUES COMPACT PIPE RANGER TRANSPORTER

The CUES Compact Pipe Ranger (**CPR**) is a lightweight, compact, and rugged steerable TV camera transporter used to inspect sanitary and storm sewers. CPR is designed to operate on a minimum of 1000' ft of multi-conductor TV cable to inspect 6" relined pipe through 48" diameter pipe. CPR includes full-proportional steering to traverse meandering pipe and 45 and 90 degree turns. The superior pulling power of the CPR, combined with the optics and

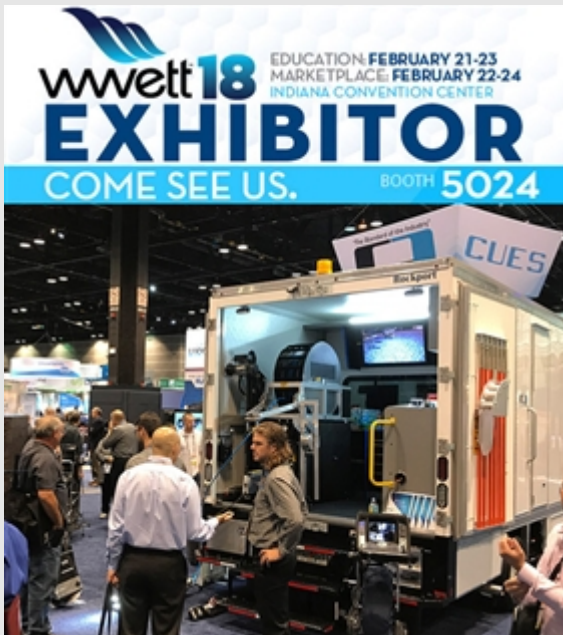

directional lighting of the compact OZIII zoom pan and tilt camera (with the ability to rotate in a 4" circle), creates video inspection quality that's unsurpassed in the industry. To learn more about the CPR transporter, [contact your CUES Regional Sales Manager](#).
