# Welcome to **CUES** News

**THE NEXT GENERATION  
CONDITION ASSESSMENT SOFTWARE**

# GraniteNet

ASSET INSPECTION / DECISION SUPPORT SOFTWARE

**GraniteNet is a PACP, MACP and LACP **Version 7** certified software platform for managing assets, tasks, people and equipment.**

GraniteNet is the next generation condition assessment software for the water/wastewater

industry. GraniteNet software is asset based, which enables the software to easily interface with other asset based software products such as ESRI ArcGIS Mapping systems, and asset management systems to include Cityworks, Infor Public Sector (Hansen), IBM Maximo, and others. Intuitive and easy to use, data and video can now be accessed via a web portal.

GraniteNet is a solution to orchestrate many processes to drive down costs. GraniteNet aggregates information into one place for better decisions: cleaning, CCTV, smoke, lateral, GPS, hydrants, water valves, street lights, signage, gas lines, etc. Please visit [www.gnet.us.com](http://www.gnet.us.com) to learn more and schedule a demonstration.

### Speaker Details:

Pierre Mikhail is the Director of the CUES Manhole Inspection Division (MID). CUES MID specializes in providing utilities and contractors with innovative and unique inspection technologies to address manhole and connecting pipeline inspections. Mr. Mikhail has been with CUES for a period of 2 years where he serves as a technical lead and director for the CUES manhole inspection products.

Prior to CUES, Mr. Mikhail held positions in Engineering Consulting Firms over a period of 21 years with a majority of that time spent assisting utilities around the country with their sanitary and storm assessment challenges.

## UPCOMING SPEAKER/SHOW EVENTS

CUES sales professionals, along with over 20 authorized CUES dealerships, attend over 50 shows per year domestically and worldwide. Most of these shows offer learning opportunities, workshops, and/or exhibits to help educate visitors on the latest technology and tools in the industry. CUES is proud to not only attend these shows, but also provide [key note speakers](#) on a range of topics and products. Be sure to check out upcoming speaker details on the [CUES website](#).

## HISTORY IN THE MAKING

To enhance awareness of our products, CUES is in the process of creating a history wall and product museum at CUES' Corporate Office in Orlando, Florida. Both projects are being designed to highlight and showcase the history of our pipeline inspection equipment, from 1964 - current. If you're in the area, be sure to stop by and learn how CUES products have provided pipeline inspection solutions for over 50 years! More information and

photos will be included in future CUESNews.

## NEW! CUES TIPS VIDEO - TV Cable Repair on the DUC Cable

CUES has released a new CUES TIPS video! CUES TIPS videos are short, simple instructional videos or "tips" on the operation of CUES products. [Click here](#) to watch the "TV Cable Repair on the DUC Cable" video on the [CUES YouTube channel](#). This video includes detailed instructions for the HD321 TV cable and the HD905 repair kit, which is for the splice and HD connection used with the DUC camera.

## QUALITY USED INVENTORY FOR SALE

CUES offers a great selection of quality used equipment for sale, everything from cameras, transporters, and more! [Click here](#) to view the current list of equipment. The items are sold on a first come/first serve basis and include a 3-month warranty. Please be advised that the inventory is constantly changing due to the acquisition of additional equipment on any given day. To verify availability and to take advantage of our inventory specials, contact the [CUES Parts Department](#) today!
