LAMP II with Lateral Pan & Tilt Camera

Identify infiltration and inflow, potential crossbores, pipe defects, and structural conditions in lateral services and mainlines with the **CUES LAMP II**. LAMP II can pull 1000' video cable, reducing traffic control expenses, while increasing production, and launch 150' or more into the lateral. The optional mini pan & tilt camera includes a detachable steering wand, self-leveling camera head, built-in lens wiper, 360 degrees pan and tilt, (4) banks of LED's with variable light intensity, and a built-in sonde with switchable frequencies.
