

Welcome to **CUES** News

Steerable Pipe Ranger II

The CUES [Steerable Pipe Ranger II](#) is a rugged and versatile robotic camera transporter designed to traverse silt, mud and debris commonly found in storm and sanitary sewers. The SPR II is designed with single-point wheel removal to facilitate speedy configuration changes for various pipe diameters and conditions. The unique built in two (2) speed transmission doubles the torque of the unit to produce maximum pulling power in large diameter pipe when the 10.5" diameter tires are installed. Multiple wheel sets are available to maximize bottom clearance, traction, and optimum camera position. To learn more

about the SPR II, [contact your CUES Regional Sales Manager](#).

VISIT US AT WEFTEC 2017

Mark your calendars and make plans to visit CUES at the 2017 [WEFTEC Conference](#) in Chicago on October 2-4, 2017. WEFTEC, the Water Environment Federation's Technical Exhibition and Conference, is the largest annual water quality event in the world. CUES will have exciting new innovations for the water/wastewater industry, as well as experts and top executives on hand to answer any questions you may have. Visit CUES in Booth 612. We hope to see you at the show!

The banner features the WEFTEC 2017 logo at the top left, with the tagline 'the water quality event™'. Below the logo is a blue pill-shaped button with the word 'EXHIBITOR' in white. The central text reads 'COME SEE US OCTOBER 2-4 CHICAGO, IL BOOTH 612'. At the bottom left is a '90 YEARS' anniversary logo, and at the bottom right is the website 'www.weftec.org'. The background includes a silhouette of a city skyline.

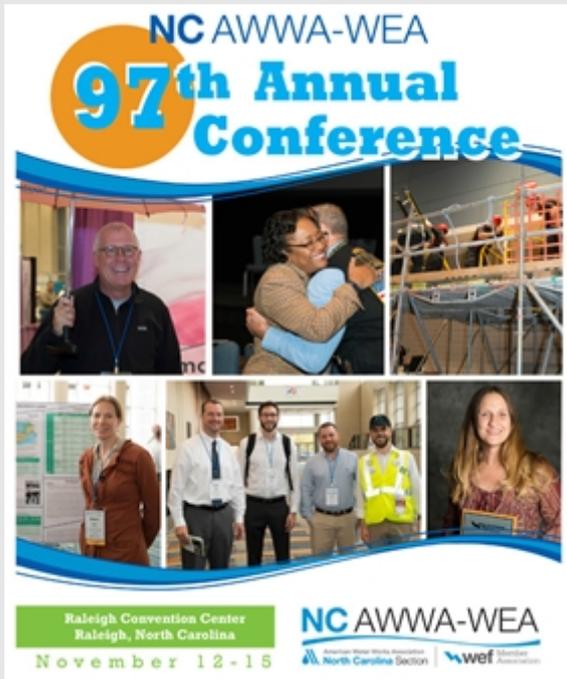

HURRICANES HARVEY & IRMA

We all watched and waited anxiously as hurricanes Harvey and Irma tried to destroy Texas and Florida. Although there were some casualties, thank God most of us only lost personal items and didn't suffer any injuries or fatalities.

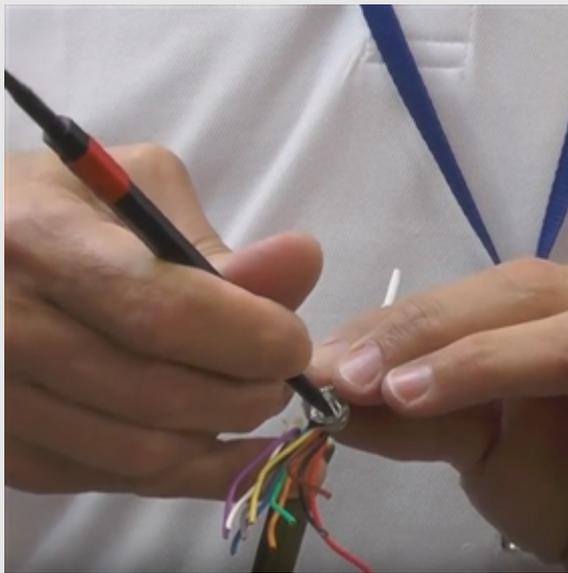

Through it all, most have shown humility and kindness by helping each other through these most difficult times. It doesn't take a lot of effort to reach out to a neighbor and offer assistance. Some of the greatest stories that have come from these storms have been about that...neighbor helping neighbor.

A special thanks to the first responders, organizers, volunteers, power and electric companies, and everyone that has helped and is still helping Texas and Florida get back to normal. There's so much more work to be done, but let's say a special prayer for those that lost a family member / friend during these storms and for those that are still suffering. These (2) hurricanes have taken a lot, but will never take our humanity.

VISIT US AT NC AWWA-WEA

Mark your calendars and make plans to visit CUES at the annual conference of the [North Carolina Section of the American Water Works Association and the North Carolina Water Environment Association \(NC AWWA-WEA\)](#) in Raleigh, NC, on November 12-15, 2017. The NC AWWA-WEA is dedicated to providing water and wastewater education, training, and service in an effort to protect public health and the environment. CUES will have exciting new innovations for the water/wastewater industry, as well as experts and top executives on hand to answer any questions you may have. Visit CUES in Booth 404. We hope to see you at the show!

CUES TIPS VIDEO - TV Cable Splice Video for TM607 and RP124 Repair Kit
