

Lite Stick

Customer Choice Package Options

"The Standard of the Industry"

World's Leading Manufacturer of
Pipeline Inspection Equipment

The CUES Lite-Stick easily connects to any existing TV system. The stand-alone capability and wireless video options allow the customers to choose the packages that are best suited for them. Start with the base unit and configure your system the way you want it.

LITE STICK BASE UNIT

The Lite-Stick base package includes a built-in wireless video transmitter and battery assembly, a color/IR camera, built-in LED lighting with IR lamps, a lightweight telescopic inspection pole for 6.5' to 18.5' and a camera head tilting assembly that allows the operator to adjust the head to any angle for variable inspection requirements.

CUSTOMER CHOICE PACKAGES

The base Lite-Stick unit must be used in conjunction with at least one of the Customer Choice packages listed below for operation.
